MANAGEMENT

2022

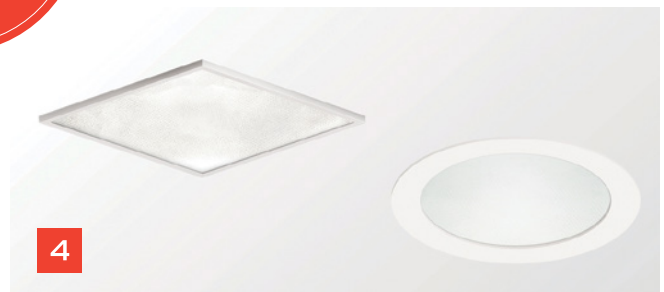

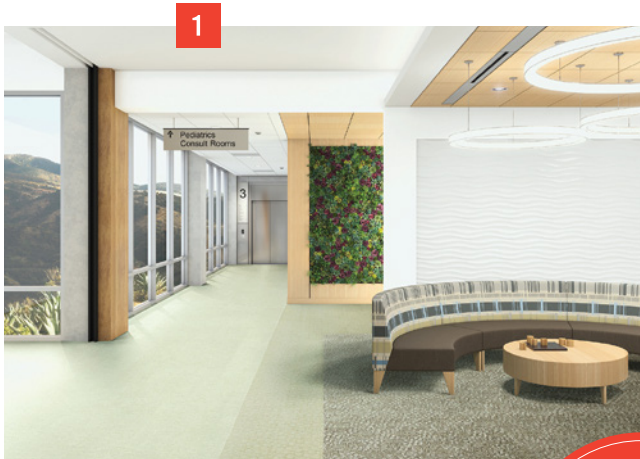

Environmental Services Departments of the Year

The EVS leadership at Orlando Regional Medical Center, recipient in the 500-plus bed category.

SOLUTIONS

ON OUR RADAR

ON OUR
RADAR

1 JUST DESERTS // The Desert Scapes line of flooring brings the soothing qualities of the desert landscape into health care spaces. Offered in vinyl tile, vinyl sheet and carpet tile, its aesthetics capitalize on the restorative aspects of biophilic design with calming colors, organic-looking textures and gentle forms that evoke arcing dunes or fields of cactus blossoms. All flooring styles in the collection are carbon neutral. **Interface**

2 ALL GRIP // This epoxy paste reduces risk of slips and falls with a durable, high-traction, completely solids-based formula. Designed for high-traffic areas, including stairs, the paste can last for years without reapplication and can withstand harsh weather, chemicals, extreme temperatures and direct sunlight. It bonds to both porous and non-porous surfaces. **Form-A-Tread**

3 SMART WATER // Symphony Software is a water optimization and energy savings platform that helps facilities managers monitor the health of water systems remotely via its cloud-based interface. The software recently added analytics capabilities for potable water systems, which allow users to track conditions that lead to waterborne pathogen growth. **Aquanomix**

4 ILLUMINATION ROUND // TrueZero360 is a collection of low-profile recessed lighting suited to a variety of health care contexts. The LED lights deliver 2,000 lumens via a patented, four-part optical system, and are available in flush and 3/8-inch regress formats. Downlight, wall wash and adjustable options ensure even, ceiling-to-floor distribution of light and boast 360-degree, glare-free illumination from all angles. **USAI Lighting**
